for providing the equipment

8th Hands-on Course on Pediatric Flexible and Rigid Bronchoscopy

28-29 May, 2026

Universitäts-Kinderklinik beider Basel (UKBB)
Spitalstrasse 33, CH-4056 Basel

Meeting point: AULA 2nd floor

Course organizer
Prof. Dr. Jürg Hammer, Basel

Faculty
Dr. med. Georg Henze Oxenius, Zürich
Dr. Carola Schön, München
PD Dr. Dirk Schramm, Düsseldorf
Prof. Dr. Daniel Trachsel, Basel

Thursday 28.5.2026

Flexible Bronchoscopy with Emphasis on the Difficult Airway

09.00 Welcome
J. Hammer

09.30 – 11.00 **Lecture Block 1 - Flexible Endoscopy - Basics**
Handling of the bronchsocope and anatomy of the airway
J. Hammer
Indications for flexible bronchoscopy in the ICU
D. Trachsel
Indications for flexible bronchoscopy in anesthesia
G. Henze

11.00 - 12.30 **Skill Station 1 – Flexible Endoscopy - Basics**
Flexible endoscopy of the airway with targeted and speedy navigation in the bronchial system. Good knowledge of bronchial segmental anatomy.

12.30 – 14.00 Lunch

14.00 – 15.00 **Lecture Block 2 – Flexible Endoscopy – Difficult airway**
Anesthesia for bronchoscopy - what is important
G. Henze
Fiberoptic intubation techniques
G. Henze

15.00 – 16.15 **Skill Station 2 - Fiberoptic Intubation Techniques**
Via endoscopy mask and LMA

16.15 – 16.30 Coffee Break

16.30 – 17.00 **Lecture Block 3**
BAL in PICU and total lung lavage (25‘)
C. Schön
Endobronchial blocker placement (5‘)
G. Henze

17.00 – 18.30 **Skill Station 3 - Fiberoptic-guided Interventions**
Endobronchial blocker placement
Foreign body extraction with help of the fiberoptic scope

18.30 **Review and Outlook - informal Apéro**

Friday 29.5.2026

Rigid Bronchoscopy - Basics, Foreign Body Removal

09.15 Welcome
J. Hammer

09.30 – 11.00 **Lecture Block 4**
Knowlede of the rigid instrumentarium
D. Schramm
Handling of the rigid bronchoscope - practical tips
C. Schön
Rigid Endoscopes for Airway Management
G. Henze

11.00 - 12.30 **Skill Station 4 – Rigid Bronchoscopy - Basics**
Rigid bronchoscopy of the pediatric airway. Intubation and Navigation in the tracheo-bronchial tree.

12.30 – 14.00 Lunch

14.00 – 15.15 **Lecture Block 5 – Rigid Bronchoscopy**
Foreign body extraction rigid and flexible
D. Schramm
Complications and interventional techniques
C. Schön
Rigid bronchoscopy in the ICU
J. Hammer

15.15 – 15.30 Coffee Break

15.30 – 17.30 **Skill Station 5 - Foreign Body Extraction by Rigid Bronchoscopy**
Practice of foreign body extraction with optical forceps

17.30 **Conclusion and Feedback**

Lecture blocks are held in the Aula on the 2nd floor

Skill stations are in rooms B1 und B2 (3rd floor) and D5 (1st floor, PICU)
